#### INDEPENDENT AUDITORS' REPORT

Board of Directors Cambridge Redevelopment Authority Cambridge, Massachusetts

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the activities of the Cambridge Redevelopment Authority (the "CRA"), a component unit of the City of Cambridge, Massachusetts, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the CRA's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Cambridge Redevelopment Authority Page Two

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the activities of the CRA as of December 31, 2019, and the respective changes in financial position and, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and the schedules listed under the required supplementary information section in the accompanying table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the CRA's basic financial statements. The supplementary schedules section as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Expense Allocation – Project Costs Schedule is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Cambridge Redevelopment Authority Page Three

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 19, 2020 on our consideration of the CRA's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the CRA's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in consideration of the CRA's internal control over financial reporting and compliance.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the Cambridge Redevelopment Authority's (the "CRA") financial performance provides an overview of the CRA's financial activities for the fiscal year ended December 31, 2019. We encourage readers to consider the information presented here in conjunction with their review of the basic financial statements, notes to the basic financial statements and required supplementary information.

#### **Financial Highlights**

- The assets and deferred outflows of financial resources of the CRA exceeded its liabilities and deferred inflows of financial resources at the close of the most recent fiscal year by over \$57.1 million (total net position). Of this amount, over \$41.2 million is unrestricted and may be used to meet the CRA's ongoing obligations.
- As part of its ongoing mandate to provide management and support to the further development of the Kendall Square Urban Renewal Area, the CRA Board of Directors had dedicated, in aggregate, nearly \$15.0 million of net position for use on the KSTEP and Foundry project programs. As of December 31, 2019, \$2 million of project expenses have been recorded to these restricted funds programs.
- The CRA's issued a new note for \$7 million in the current fiscal year to fund the purchase of a new building and property valued at over \$7 million in Cambridge MA. This building houses non-profit organizations within the community.
- The CRA's total net position increased over \$19.6 million year to year. This was consistent with management's expectations since the sale of development rights is based upon pre-existing formulas and are triggered by observable and verifiable stages of a building's development progress.
- The CRA's investment performance for 2019, net of investment management fees increased nearly \$2.6 million from the prior year and benefited from a robust market. However, the benchmark U.S. equity indices were down significantly in the first quarter of 2020. The volatility in U.S. markets is historic and primarily due to the COVID-19 pandemic, which sparked liquidations of equities and debt securities causing market prices of nearly all investment securities to plummet. Additionally, declining worldwide oil prices further exacerbated the situation. The CRA actively manages its investments and has taken steps to attempt to mitigate losses.

#### **Overview of the Financial Statements**

This discussion and analysis are intended to serve as an introduction to the CRA's basic financial statements. This report consists of the basic financial statements, notes to the financial statements, and various other disclosures of supplementary information. The CRA is a component unit of the City of Cambridge and is a self-supporting entity that follows enterprise fund reporting.

**Financial Statements** – These statements are presented in a manner similar to a private business, such as a real estate development company. Accordingly, the financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Enterprise fund statements offer short-term and long-term financial information about the activities and operations of the CRA.

The *statement of net position* presents information on all of the CRA's assets and deferred outflows of financial resources and its liabilities and deferred inflows of financial resources, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial condition of the CRA is improving or deteriorating.

The *statement of revenues, expenses and changes in net position* presents information showing how the CRA's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected receivables and earned but unused vacation leave.) The *statement of cash flows* presents information on the CRA's cash inflows, outflows and changes in cash resulting from operations, investments and financing activities.

**Notes to the Financial Statements** – The notes provide additional information that is essential to a full understanding of the data provided in the financial statements.

**Other Information** – In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the CRA's proportionate share of net pension liability, contributions to pension plan, schedule of changes in net OPEB liability and related ratios, schedule of contributions – OPEB, and schedule of investment returns – OPEB.

Furthermore, it includes supplementary information presented by the CRA relative to the allocation of costs by each current year project program.

#### **Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of the CRA's financial condition. In the case of the CRA, assets and deferred outflows of financial resources exceeded liabilities and deferred inflows of financial resources by over \$51.1 million at the close of the most recent fiscal year. This was an increase of about \$19.6 million from the preceding year.

The condensed statement of net position is as follows:

	D	ecember 31,	D	ecember 31,
		2019		2018
<u>Assets</u>				
Current and other assets	\$	57,563,270	\$	37,914,571
Capital assets, net		9,872,023		962,489
Total assets		67,435,293		38,877,060
<u>Deferred Outflows of Financial Resources</u>		238,660		367,164
<u>Liabilities</u>				
Long-term liabilities		7,975,585		1,477,409
Other liabilities		2,256,055		193,687
Total liabilities		10,231,640		1,671,096
<u>Deferred Inflows of Financial Resources</u>		326,513		76,108
Net Position				
Net investment in capital assets		2,895,066		962,489
Restricted for programs		13,000,000		15,000,000
Unrestricted		41,220,734		21,534,531
Net Position	\$	57,115,800	\$	37,497,020

The largest portion of the CRA's net position, over \$41.2 million, consist of unrestricted funds that are available for spending on future development projects and administrative costs as determined and directed by the CRA's Board of Directors which is the CRA's legislative branch.

Net position also includes restricted program funds reported at fair value totaling almost \$13.0 million (allocated to the KSTEP and Foundry project programs in initial amounts of approximately \$6.0 million and \$7 million, respectively). The restricted value of these funds is anticipated to be impacted annually as project costs are incurred; \$2 million has been expensed against these restricted funds as of December 31, 2019.

Also, a portion of the CRA's net position (approximately \$2.9 million) is reflected as its net investment in capital assets (e.g. land and improvements, and machinery and equipment), less any related debt used to acquire those assets that is still outstanding. The CRA uses these capital assets to provide services to the citizenry of the City of Cambridge; consequently, these assets may not be sold to provide resources for future operations.

Total assets in 2019 were increased primarily by proceeds of over \$20 million from the sale of development rights which is being paid to the CRA over certain periods. These transactions resulted in over a \$24.5 million receivable at year-end.

The condensed statement of changes in net position is as follows:

	Year Ended December 31,							
		2019		2018				
Revenues								
Program revenues:								
Sale of development rights	\$	20,630,710	\$	4,795,308				
Rental income		189,505		30,388				
Grants, contributions and donations		2,500		-				
Other income		39,728		159,164				
Investment income		2,970,784		396,976				
Total revenues		23,833,227		5,381,836				
<u>Expenses</u>								
Administrative		613,122		604,407				
Professional services		136,071		99,828				
Project consulting		3,250,908		1,013,831				
Property maintenance		79,872		20,942				
Forgiveness of project note		-		540,000				
Disposition of property		-		146,160				
Interest expense		37,689		-				
Depreciation		96,785		34,527				
Total expenses		4,214,447		2,459,695				
Change in net position		19,618,780		2,922,141				
Net position - beginning of year		37,497,020		34,574,879				
Net position - end of year	\$	57,115,800	\$	37,497,020				

The CRA's total net position at December 31, 2019, increased approximately \$19.6 million over the prior year. Operating revenues of almost \$24 million consisted primarily of the sale of development rights. This also contributed to the increase of over \$18.4 million in operating revenues compared to the prior year. The timing and amounts of proceeds from the sale of development rights is always anticipated to fluctuate significantly year to year and may in some years be non-existent as it is predicated on the activities of outside property developers, the City's approval of projects, and the economic health of the economy.

As previously mentioned, the CRA benefited from a robust economy and market in the current fiscal year as investment income increased by over \$2.5 million from the prior year.

Operating expenses increased significantly; almost \$1.8 million. Hand in hand with the recent increase in available financial resources has been a vigorous energizing of redevelopment activities which has resulted in a collateral increase in operating expenses. This is reflected within its project consulting costs which in aggregate were almost \$2.3 million greater than the prior year. Of the increase, \$2.0 million is due to the payment related to the Foundry Project previously mentioned that the CRA has committed to. This was offset by a provision for bad debt expense that was recognized in the prior year relating to a previously issued long-term note receivable to provide assistance with an affordable housing project that the CRA made a determination that as long as the loan recipient continues to maintain use of the property for affordable housing, the CRA will most likely not enforce its right to collect the loan principal or interest at time of maturity.

#### **Capital Asset and Debt Administration**

**Capital Assets** - The CRA's investment in capital assets as of December 31, 2019, approached \$9.9 million, net of accumulated depreciation. This investment in capital assets includes land, improvements to the land, and machinery and equipment. Net capital assets increased mainly due to the building and property previously mentioned that was bought by the CRA in the current fiscal year.

The CRA maintains development properties held for sale that it classifies as long-term assets since they are not expected to be liquidated within twelve months of year-end.

Additional information on the CRA's net capital assets can be found in the notes to the basic financial statements.

**Long-Term Debt** – At December 31, 2019 the CRA's total long-term debt increased approximately \$7 million as the CRA took out a bank loan to help purchase the property previously mentioned.

Additional information on the CRA's long-term debt can be found in the notes to the financial statements.

#### **Economic Factors and Next Year Activity**

The CRA will continue to manage and assist with the development of the Kendall Square Urban Renewal Plan (KSURP) as provided within its authority and mandate. With the expected significant inflow of available financial resources from the sale of development rights anticipated for 2020 and even more in coming years relative to ongoing building construction in the KSURP area, the CRA continues to aggressively evaluate how it may utilize its resources towards new and expanding programmatic endeavors as it transitions from the evaluation phase to the implementation stage.

This evaluation of need may also result in the CRA exploring activities beyond the existing KSURP boundaries to other areas of the City where redevelopment projects are under consideration.

However, the CRA is looking for measured and planned growth of its activities since the major revenue stream into the CRA cannot be annually relied upon for consistency given the cyclical nature of development and construction activities upon which the sale of development rights is based.

Accordingly, a portion of the CRA's strategy is to ensure that adequate operational funds will continue to exist in the long-term to cover employee and administrative overhead costs while pursuing endeavors inline with stated goals and objectives.

#### **Request for Information**

This financial report is designed to provide interested parties a general overview of CRA's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Mr. Thomas Evans, Executive Director, Cambridge Redevelopment Authority, 255 Main Street, 8th Floor, Cambridge, Massachusetts 02142.

### **CAMBRIDGE REDEVELOPMENT AUTHORITY**(A Component Unit of the City of Cambridge, Massachusetts)

#### NOTES TO THE FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2019

#### 1. Summary of Significant Accounting Policies

The basic financial statement of the Cambridge Redevelopment Authority ("CRA") have been prepared in conformity with generally accepted accounting principles ("GAAP") as applied to state and local governments. GAAP is prescribed by the Governmental Accounting Standards Board ("GASB"), which is the primary standard-setting body for state and local governmental entities. The following is a summary of the more significant policies and practices used by the CRA.

#### A. Reporting Entity

The Cambridge Redevelopment Authority was established in 1955 pursuant to Chapter 121B of the Massachusetts General Laws, as amended, to administer and plan urban renewal projects and other community development projects within the City of Cambridge, Massachusetts (the "City"). The CRA was issued a Certificate of Organization by the Secretary of the Commonwealth of Massachusetts on November 20, 1956. The CRA is governed by a five-member board of directors, one of whom is appointed by the Governor of the Commonwealth of Massachusetts and the remaining four members by the Cambridge City Manager and confirmed by the Cambridge City Council.

The CRA is a component unit of the City. The City's audited financial statement report may be obtained from the City Auditor's Office, 795 Massachusetts Avenue, Cambridge, Massachusetts 02139.

#### **B.** Basis of Accounting and Financial Statement Presentation

The CRA's financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as specified by the Governmental Accounting Standards Board's ("GASB") requirements for an enterprise fund. Operating revenues and expenses result from the administering of community development projects within the City. All other revenues and expenses are reported as nonoperating revenues and expenses.

#### C. Assets, Liabilities, and Deferred Outflows/Inflows of Resources and Net Position

<u>Deposits and Investments</u> – Cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. The CRA reports its investments at fair value. When actively quoted observable prices are not available, the CRA generally uses either implied pricing from similar investments or valuation models based on net present values of estimated future cash flows (adjusted as appropriate for liquidity, credit, market and/or other risk factors).

The District categorizes its fair value measurements within the fair value hierarchy established by GAAP. This hierarchy is based on valuation inputs used to measure the fair value of the asset or liability.

The three levels of the hierarchy are as follows:

- Level 1 Inputs are quoted prices in active markets for identical investments at the measurement date.
- Level 2 Inputs (other than quoted prices included in Level 1) are either directly or indirectly observable for the investment through correlation with market data at the measurement date and for the duration of the instrument's anticipated life.
- Level 3 Inputs reflect the District's best estimate of what market participants would use in pricing the investment at the measurement date.

The remaining investments not categorized under the fair value hierarchy are shown at net asset value ("NAV"). These are investments for which a readily determinable fair value is not available, such as member units or an ownership interest in partners' capital to which a proportionate share of net assets is attributed. Investments at NAV are commonly calculated by subtracting the fair value of liabilities from the fair value of assets.

<u>Accounts Receivable</u> – Accounts receivable are presented net of the allowance for doubtful accounts. Management's periodic evaluation of the adequacy of the allowance is based on its past experience. Accounts receivable are written off when deemed uncollectible.

<u>Notes Receivable</u> – Notes receivable are presented at their issued principal amount. Payments from borrowers are not expected until the stated maturity date. Any interest income accruing on the notes will be recognized as revenue at the time it is earned. Notes receivable may be subject to write off when deemed uncollectible.

<u>Development Projects Held for Sale</u> – The CRA is the owner of certain properties (real estate - improved and land) within its project development area. Generally, properties are acquired in connection with specified development projects and the costs associated with the acquisition of properties are recorded as property held for sale. The CRA reviews property held for sale to determine estimated net realizable values. Property carrying amounts in excess of net realizable values are reduced to their net realizable values. Use of the proceeds from the rental and ultimate disposition of the properties is unrestricted.

<u>Capital Assets</u> – Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. All purchases and construction costs in excess of \$5,000 and with useful lives exceeding one year are capitalized at the date of acquisition or construction. The costs of normal repairs and maintenance that do not add to the value of the asset or materially extend assets lives are not capitalized.

Capital assets (excluding land and construction-in-process) are depreciated by the CRA on a straight-line-basis. The estimated useful lives of capital assets are being depreciated as follows:

Land improvements30 yearsMachinery and equipment5-7 years

<u>Developer Deposits Held</u> – From time to time, the CRA receives developer deposits in accordance with development agreements by and between the CRA and third parties. Deposits held consist primarily of funds placed with the CRA by third party developers for the right to a future purchase of land. Upon purchase, these deposits would be deducted from the agreed-upon purchase price. As of December 31, 2019, there were no such deposits held by the CRA.

<u>Compensated Absences</u> – Employees earn vacation and sick time as they provide services to the CRA. Employees may accumulate (subject to certain limitations) unused vacation and sick time earned and, upon retirement, termination or death, be compensated for unused portions of the time earned. These accumulated benefits will not necessarily be liquidated with expendable, available financial resources.

<u>Long-Term Debt</u> - Long-term debt is reported as liabilities in these basic financial statements. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method, if material.

<u>Deferred Outflows/Inflows of Financial Resources</u> — In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of financial resources. This separate financial statement element, *deferred outflows of financial resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The CRA has two items that are reported on the statement of net position which relates first to outflows from changes in the net pension liability and will be recognized in pension expense in the future year as more fully described in Note H. Secondly, it relates to the net other postemployment benefits liability, which will be recognized in benefits expense in future years as more fully described in Note I.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of financial resources. This separate financial statement element, deferred inflows of financial resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The CRA has two items that are reported on the statement of net position which relates first to inflows from changes in the net pension liability and will be recognized as an offset to pension expense in a future year as more fully described in Note H. Secondly, it relates to the net other postemployment benefits liability, which will be recognized as an offset to benefits expense in future years as more fully described in Note I.

<u>Revenue Recognition</u> – Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The sale of developer rights is the most significant source of revenue received by the CRA; however, these revenues are only earned when certain benchmarks are reached relative to the development of property within the designated KSURP area. The revenues are recognized at the time those benchmarks are achieved. Sales of developer rights are periodic revenues and may not be earned each year.

The CRA temporarily rents its space within a commercial building that it purchased during 2019 and other open space property for variable short- and long-term periods. Rents are charged monthly and recognized monthly when billed.

Grants are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Gifts and contributions to CRA programs are recognized as revenues when received.

<u>Use of Estimates</u> – The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America, or GAAP, requires management to make estimates and assumptions that affect the reported amounts of (1) assets and liabilities, (2) contingent assets and liabilities at the date of the basic financial statements, and (3) revenues and expenses during the fiscal year. Actual results could vary from estimates that were used.

<u>Taxes</u> – The CRA is exempt from all federal and state income taxes and real estate taxes.

<u>Budgetary Data</u> – GAAP requires a budgetary comparison schedule to be presented for the general fund and each major special revenue fund that has a legally adopted budget. The CRA completes an operating budget that is approved by the Board of Directors; however, the budget serves primarily as a guideline for operations and does not meet the criteria for being legally adopted. Accordingly, the CRA has not presented budgetary information.

#### II. Detailed Notes to All Funds

#### A. Deposits and Investments

State laws and regulations require the CRA to invest funds only in pre-approved investment instruments, which include but are not necessarily limited to bank deposits, money markets, certificates of deposit, U.S. obligations, repurchase agreements, and the state treasurer investment pool. In addition, the statutes impose various limitations on the amount and length of investments and deposits. Repurchase agreements cannot be for period over ninety days and the underlying security must be a United States obligation. During the fiscal year, the CRA did not enter into any repurchase agreements.

<u>Concentration of Credit Risk: Deposit</u> – In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The CRA maintains a deposit policy for custodial credit risk relative to cash withholdings. In particular, the policy addresses deposits held in unsecured accounts relative to dollar limits on the percentage of cash held in such accounts, diversification of deposits, as well as time limits on how long unsecured certificates of deposit may be purchased for. The CRA carries deposits that are fully insured by the Federal Deposit Insurance Corporation, or FDIC, as well as the Depositors Insurance Fund, or DIF, as well as uninsured deposits.

At year-end, the carrying amount of the CRA's deposits was \$387,998, and the bank balance was \$429,054. Of the CRA's bank balance, \$250,000 was insured by the Federal Depository Insurance Corporation (FDIC), and the remainder was uninsured and uncollateralized.

<u>Custodial Credit Risk: Investment</u> – In the case of investments, this is the risk that in the event of the invested party not being able to provide required payments to investors, ceasing to exist, or filing of bankruptcy, the CRA may not be able to recover the full amount of its principal investment and/or investment earnings. The CRA's common stock investments totaling \$5,369,104 are not exposed to custodial credit risk because they are held by the CRA. However, the fixed income corporate bonds and U.S. government securities are subject to such risk and totaled \$18,997,918. The CRA does not have a deposit policy for custodial credit risk relative to investments.

<u>Fair Value Measurement: Investments</u> - The following table presents the CRA's investments carried at fair value on a recurring basis in the statement of net position at December 31, 2019:

		Fair Value Measurements Using						
	Totals	Level 1	Level 2	Level 3				
Investments by Fair Value Level								
Debt securities:								
U.S. Government obligations	\$ 14,825,163	\$ 8,322,916	\$ 6,502,247	\$ -				
Foreign Issuance	1,007,160	-	1,007,160	-				
Corporate bonds	3,165,595	3,165,595	-	-				
Negotiable certificates of deposit	502,348		502,348					
Total debt securities	19,500,266	11,488,511	8,011,755	-				
Equity securities:								
Common stock	5,369,104	5,369,104						
Total equity securities	5,369,104	5,369,104	-	-				
Total Investments by Fair Value Level	24,869,370	\$ 16,857,615	\$ 8,011,755	\$ -				
Investments Measured at Amortized Cost								
Money market mutual funds	7,637,969							
Total investments at fair value	\$ 32,507,339							

Equity securities classified in Level 1 are valued using prices quoted in active markets for those securities. Debt securities and negotiable certificates of deposit are classified in Level 2 valued using observable inputs from similar securities, including basing value on yield currently available on comparable securities of issued with similar credit ratings.

<u>Interest Rate Risk: Deposits</u> – This is the risk that fair value losses may arise due to increasing interest rates. The CRA's investment policy does not set limits on investment maturity periods as a way of managing its exposure to fair value losses arising from rising interest rates.

<u>Interest Rate Risk: Investments</u> – Debt security investments are subject to inherent rate risk. Debt securities may be adversely affected by changes in interest rates, which may negatively affect the fair value of the individual debt instruments. The CRA's investment policy does not set limits on investment maturities as a way of managing its exposure to fair value losses arising from increasing interest rates.

At December 31, 2019, the CRA had the following investments with maturities:

			T	ime Until Matu	ırity (	Years)		
	Fair	Less					M	ore
Investment Type	Value	 Than 1 1-5		6-10		Than 10		
U.S. government obligations	\$ 14,825,163	\$ 6,085,103	\$	8,740,060	\$	-	\$	_
Foreign Issuance	1,007,160	-		1,007,160		-		-
Corporate fixed income securities	3,165,595	892,424		2,009,168		264,003		-
Certificates of deposit	502,348	-		502,348		-		-
Total Investments with Maturities	19,500,266	\$ 6,977,527	\$	12,258,736	\$	264,003	\$	
Other Investments:								
Equities	5,369,104							
Money market mutual funds	7,637,969							
Total Investments	\$ 32,507,339							

<u>Concentration of Credit Risk</u> – The CRA does not place a limit on the amount that may be invested in any one issuer. No issuer represented more than 5% of the CRA's total investments at December 31, 2019.

<u>Credit Risk</u> – The CRA has not adopted a formal policy related to credit risk.

As of December 31, 2019, the credit quality ratings of the CRA's debt securities were as follows:

		U.S.	Corporate						
Quality Ratings	G	overnment	Foreign	Fixed		Cert	ificates		
(S&P's)	(	Obligations	 Issuance	ssuance Income		of Deposit			Totals
AAA	\$	9,113,802	\$ 1,007,160	\$	-	\$	-	\$	10,120,962
AA+		5,711,361	-		-		-		5,711,361
AA-		-	-		915,498		-		915,498
A+		-	-		911,965		-		911,965
A		-	-		862,926		-		862,926
A-		-	-		475,206		-		475,206
Not rated			 				502,348		502,348
Totals - All	\$	14,825,163	\$ 1,007,160	\$ 3,	165,595	\$ 5	502,348	\$	19,500,266

#### **B.** Accounts Receivables

Receivables as of year-end for the CRA, in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

			Allov	vance				
		Gross	for Do	oubtful		Net	Due Within	
Receivables	Amount		Amount Accounts		Amount		One Year	
Rental income	\$	6,245	\$	_	\$	6,245	\$	6,245
Reimbursable expenses		1,554		-		1,554		1,554
Proceeds from development rights		24,517,075				24,517,075		21,494,348
Total	\$	24,524,874	\$		\$	24,524,874	\$	21,502,147

Accounts receivables as of year-end of the CRA were comprised of proceeds from development rights and other minor operational amounts due from agreements or reimbursement commitments.

In the Fiscal Year 2019, the CRA agreed to an agreement with Boston Properties to receive \$4,750,000 over the next eleven years, for the residential area development rights of a building. The CRA is expected to receive \$431,818 each year for the next nine years.

#### C. Note Receivable

Note receivables as of year-end for the CRA, in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

			A	Allowance				
		Gross	fo	r Doubtful		Net	Due '	Within
Note Receivables	<u> </u>	Amount		Accounts	A	Amount	One	Year
Affordable housing loan	\$	554,405	\$	(554,405)	\$	-	\$	-
Line of Credit		83,201		(1,485)		81,716		-
Total	\$	637,606	\$	(555,890)	\$	81,716	\$	-

The Affordable housing loan note was issued in November 2017 to an external developer for purposes of supporting affordable housing activities. The note has a maturity of November 22, 2059 and accrues interest annually at 2.60%; no payments of principal or interest are required of the borrower prior to the maturity date. Presently, as long as the borrower maintains the usage of the property within the stated purpose on the loan agreement, the CRA anticipates forgiving this loan at time of maturity; therefore, an allowance for potential non-collection has been recorded for the full amount of the note receivable. However, as this forgiveness is not declared in the loan documents, the loan remains a valid receivable of the CRA and is accruing interest annually under the agreement.

The Line of Credit note was issued in April 2019 to a social services organization in the City to bring new housing to the organization's site, as well as, building upgrades and renovations to its historic building and parking lot. The Agreement provides for a loan amount of up to \$250,000 that will be drawn down by the organization as needed for the project and will be paid back by the organization with revenue earned after the project is completed.

#### D. Capital Assets

Capital assets activity for the year ended December 31, 2019, was as follows:

	Beginning						Ending
	Balance		Increases	Decreases		Balance	
Capital assets not being depreciated:	\$ 30.2	53 \$	5 1,535,500	¢		\$	1 565 752
Total capital assets not being depreciated	\$ 30,25		1,535,500	\$	<del></del>	<u> </u>	1,565,753
Capital assets being depreciated:	30,2.		1,333,300				1,303,733
Improvements	1,035,8	17	-		-		1,035,817
Building		<u>-</u>	7,470,818		_		7,470,818
Total capital assets being depreciated	1,035,8	17	7,470,818		-		8,506,635
Less accumulated depreciation for:							
Improvements	(103,5)	31)	(34,527)		-		(138, 108)
Building		<u>-</u>	(62,257)				(62,257)
Total accumulated depreciation	(103,5	31)	(96,784)		-		(200,365)
Total capital assets being depreciated, net	932,2	36	7,374,034		-		8,306,270
Capital assets, net	\$ 962,4	39 \$	8,909,534	\$	_	\$	9,872,023

#### E. Long-Term Obligations

The following reflects the current year activity in the long-term liability accounts:

	Beginning			Ending	Due within	
	Balance Additions		Deductions	Balance	one year	
Long-term note payable	\$ -	\$ 7,000,000	\$ (23,043)	\$ 6,976,957	\$ 140,897	
Compensated absences	41,453	20,764	(10,363)	51,854	12,964	
Net pension liability	606,895	388,121	(539,240)	455,776	-	
Net OPEB liability	839,424	52,674	(247,239)	644,859		
<b>Total Long-Term Obligations</b>	\$ 1,487,772	\$ 7,461,559	\$ (819,885)	\$ 8,129,446	\$ 153,861	

Notes payable outstanding at December 31, 2019 were as follows:

Description of Issue	Maturing Year	Interest Rate	Beginning Balance	6 6		Ending Balance
Bank note payable	2034	3.18%	\$ -	\$ 7,000,000	\$ (23,043)	\$ 6,976,957
Total			\$ -	\$ 7,000,000	\$ (23,043)	\$ 6,976,957

<u>Debt Service</u> – Debt service requirements at December 31, 2019 is as follows:

Year Ending	Bank Note Payable					
December 31,	I	Principal	_	Interest		
2020	\$	140,897		\$	223,492	
2021		146,137			218,252	
2022		150,919			213,470	
2023		155,857			208,532	
2024		160,382			204,007	
2025-2029		886,692			935,253	
2030-2034	:	5,336,073	_		757,021	
Total	\$	6,976,957	_	\$ 2	2,760,027	

#### F. Operating Lease

<u>Facility Lease</u> – The CRA leases office space in Cambridge, Massachusetts. Their previous lease agreement with the building owner concluded as of December 31, 2018. Under their subsequent sub-lease agreement which started March 1, 2019, monthly lease payments for the office space will be \$6,250 and will continue through February 28, 2021. The minimum, annual lease commitments over the remaining lease term is are anticipated to be:

December 31,	<i>P</i>	Amount			
2020	\$	75,000			
2021		12,500			
Total	\$	87,500			

#### **III. Other Information**

#### A. Retirement System

The CRA contributes to the City of Cambridge Contributory Retirement System (the Retirement System), a cost-sharing, multiple-employer defined benefit pension plan for the City of Cambridge, Massachusetts. The Retirement System was established under Chapter 32 of Massachusetts General Laws (MGL) and is administered by the City and is part of the City's reporting entity. Stand-alone audited financial statements for the year ended December 31, 2019 were issued and are available at the Retirement Office, 100 Cambridge Park Drive, Suite 101, Cambridge, MA 02140.

Current membership in the Retirement System for all employers as of January 1, 2020, was as follows:

Retirees and beneficiaries receiving benefits	2,247
Terminated plan members entitled to, but not receiving benefits	498
Terminated plan members with a vested right to a deferred or immediate benefit	136
Active plan members	3,040
Total	5,921

<u>Benefit Terms</u> – Membership in the Retirement System is mandatory for all full-time employees and non-seasonal, part-time employees who, in general, regularly work more than twenty hours per week. Teachers and certain administrative personnel employed by the school department participate in a separate pension plan administered by the Massachusetts Teachers' Retirement System, which is the legal responsibility of the Commonwealth of Massachusetts. Members of the Retirement System do not participate in the federal Social Security retirement system.

Massachusetts contributory retirement system benefits are uniform from retirement system to retirement system. The System provides for retirement allowance benefits up to a maximum of 80% of a participant's highest three-year or five-year average annual rate of regular compensation, depending on the participant's date of hire. Benefit payments are based upon a participant's age, length of creditable service, level of compensation and job classification.

The most common benefits paid by the System include normal retirement, disability retirement and survivor benefits.

Normal retirement generally occurs at age 65. However, participants may retire after twenty years of service or at any time after attaining age 55, if hired prior to April 2, 2012 or at any time after attaining age 60 if hired on or after April 2, 2012. Participants with hire dates subsequent to January 1, 1978 must have a minimum of ten years' creditable service in order to retire at age 55. Participants become vested after ten years of service. Benefits commencing before age 65 are provided at a reduced rate. Members working in certain occupations may retire with full benefits earlier than age 65.

Ordinary disability retirement is where a participant is permanently incapacitated from a cause unrelated to employment. Accidental disability retirement is where the disability is the result of an injury or illness received or aggravated in the performance of duty. The amount of benefits to be received in such cases is dependent upon several factors, including the age at which the disability retirement occurs, the years of service, average compensation and veteran status.

Survivor benefits are extended to eligible beneficiaries of participants whose death occurs prior to or following retirement.

Cost-of-living adjustments granted to members of Massachusetts retirement systems granted between 1981 and 1997 and any increases in other benefits imposed by the Commonwealth during those years have been the financial responsibility of the Commonwealth. Beginning in 1998, the funding of cost-of-living amounts became the responsibility of the participating units like the Retirement System.

<u>Contributions Requirements</u> – The Retirement System has elected provisions of Chapter 32, Section 22D (as amended) of Massachusetts General Laws, which require that a funding schedule be established to fully fund the pension plan by June 30, 2040. Under provisions of this law, participating employers are assessed their share of the total retirement cost based on the entry age, normal actuarial cost method.

The CRA contributed \$86,224 to the Retirement System in fiscal year 2019, which equaled the actuarially determined contribution requirement for the fiscal year. The CRA's contributions as a percentage of covered payroll was approximately 19.25% in fiscal year 2019.

Net Pension Liability – At December 31, 2019, the CRA reported a liability of \$455,776 for its proportionate share of the net pension liability. The net pension liability was measured as of January 1, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. There were no material changes made in this update to the actuarial assumptions (see below) nor were there any material changes to the Retirement System's benefit terms since the actuarial valuation.

The CRA's proportion of the net pension liability is based on a projection of the CRA's long-term share of contributions to the Retirement System relative to the projected contributions of all employers. The CRA's proportion was approximately 0.19% at December 31, 2019.

<u>Pension Expense</u> – The CRA recognized \$154,839 in net pension expense in the statement of activities for the year ended December 31, 2019.

<u>Deferred Outflows of Resources and Deferred Inflows of Resources</u> – At December 31, 2019, the CRA reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows		Deferred Inflows	
	of Resources		of I	Resources
Differences between expected and actual experience	\$	6,957	\$	52,061
Net difference between projected and actual earnings on pension plan investments		-		72,771
Changes in assumptions		130,974		-
Changes in proportion and differences between CRA				
contributions and proportionate share of contributions		95,350		1,215
Total	\$	233,281	\$	126,047

The deferred outflows of resources and deferred inflows of resources are expected to be recognized in the CRA's pension expense as follows:

Year Ended	
December 31,	
2020	\$ 24,042
2021	26,605
2022	63,608
2023	(18,135)
2024	 11,114
Total	\$ 107,234

<u>Actuarial Valuation</u> – The measurement of the Retirement System's total pension liability is developed by an independent actuary. The latest actuarial valuation was performed as of January 1, 2020. The significant actuarial assumptions used in the January 1, 2020 actuarial valuation included:

Actuarial Cost Method	Entry age normal cost method
Amortization Method	Prior year's contributions increased by 5.85%, plus an additional contribution of \$300,000
Asset Valuation Method	Market value of assets
Inflation Rate	3.0% per annum
Investment Rate of Return	7.25% per annum
Projected Salary Increases	4.0% per annum
Cost of Living Adjustments	3.0% on the first \$16,000 of benefits
Pre-Retirement Mortality	Group 1 and 2: Pub-2010 General Employee Amount-Weighted Mortality Table set forward one year projected generationally using Scale MP-2019 Group 4: Pub-2010 Safety Employee Amount-Weighted Mortality
	Table Projected generationally using Scale MP-2019
Healthy Retiree Mortality	Group 1 and 2: Pub-2010 General Healthy Retiree and Contingent Survivor Amount-Weighted Mortality Tables set forward one year projected generationally using Scale MP-2019
	Group 4: Pub-2010 Safety Healthy Retiree and Contingent Surviror Amount-Weighted Mortality Tables projected generationally using Scale MP-2019
Disabled Retiree Mortality	Group 1 and 2: Pub-2010 General Healthy Retiree Amount-Weighted Mortality Tables set forward one year projected generationally using Scale MP-2019
	Group 4: Pub-2010 Disabled Retiree Amount-Weighted Mortality Table projected generationally using Scale MP-2019

<u>Discount Rate</u> – The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed plan member contributions were made at the current contribution rate and that employer contributions will be made at rates equal to the actuarially determined contribution rates and the member rate. Based on those assumptions, the Retirement System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

<u>Expected Rate of Return</u> – The Retirement System's investment policy targets an investment return that meets or exceeds the actuarial investment rate of return (currently 7.25%). This long-term expected rate of return is presented neither as an arithmetic or geometric means.

The investment rate of return assumption is a long-term assumption and is based on capital market expectations by asset class, historical returns and professional judgment. The market expectations analysis used a building-block approach, which included expected returns by asset class and the target asset allocation. The target allocation and best estimates of arithmetic real returns for each major asset class are summarized in the following table:

		Long-Term
	Target Asset	Expected Real
Asset Class	Allocation	Rate of Return
Cash	0.00%	0.63%
Domestic equity	28.00%	6.15%
International developed markets equity	10.00%	6.78%
International emerging markets equity	10.00%	8.65%
Core fixed income	10.00%	1.11%
High yield fixed income	10.00%	3.51%
Real estate	11.00%	4.33%
Commodities	3.00%	4.13%
Hedge fund, GTAA, Risk parity	5.00%	3.19%
Private equity	13.00%	9.99%
Total	100.00%	

<u>Sensitivity Analysis</u> – The following presents the CRA's proportionate share of the net pension liability calculated using the discount rate of 7.25% as well as the CRA's proportionate share of the net pension liability using a discount rate that is one percentage point lower (6.25%) or one percentage point higher (8.25%) than the current rate:

	1%	1% Decrease (6.25%)		Current Discount (7.25%)		1% Increase (8.25%)	
CRA's proportionate share							
of the net pension liability	\$	830,934	\$	455,776	\$	141,042	

#### **B.** Other Postemployment Benefits

The CRA administers a single-employer defined benefit healthcare plan (the "OPEB Plan"). The OPEB Plan provides health and life insurance benefits (other postemployment benefits) to current and future retirees, their dependents and beneficiaries in accordance with Section 20 of Massachusetts General Law Chapter 32B.

Specific benefit provisions and contribution rates are established by the Board of Directors, and Commonwealth laws. All benefits are provided through the CRA's premium-based insurance program. The OPEB Plan does not issue a stand-alone financial report and is presented as a fiduciary fund in the CRA's financial statements.

With respect to OPEB plan reporting, GASB issued GASB Statement No.'s 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pensions*, and Statement No, 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Reporting requirements for governments who administer an OPEB plan as defined under the accounting standard are required to present disclosures under both GASB 74 and GASB 75.

GASB 74 requires specific disclosures and required supplementary information that relate directly to the fiduciary fund in which the OPEB Plan is recorded. GASB 75 address disclosures related to the net OPEB liability required to be recorded by the government in its applicable financial statements. A number of these disclosures are identical, especially if the measurement date under GASB 75 is the same as the plan year-end date. When a different measurement date is used different assumptions and calculations will result.

For the year ended December 31, 2019, the CRA elected to use a measurement date that was the same as the plan year-end date; thus, the majority of the same disclosures are used and will not be repeated.

#### GASB Statement No. 75

OPEB Plan disclosures that impact the CRA's net OPEB liability using a measurement date of December 31, 2019, are summarized as follows:

<u>Employees Covered by Benefit Terms</u> – The following employees were covered by the benefit terms as of December 31, 2019:

Inactive employees or beneficiaries	
currently receiving benefits	10
Active employees	5
Total	15

<u>Contributions</u> – The contribution requirements of OPEB Plan members and the CRA are established and may be amended by the CRA. Retirees contribute 25% of the calculated contribution through pension benefit deductions and the remainder of the cost is funded by the CRA. The CRA currently contributes enough money to the Plan to satisfy current obligations on a pay-as-you-go basis and annually anticipates contributing additional funding above that amount into the OPEB Trust Fund. The costs of administering the OPEB Plan are paid by the CRA. For the year ended December 31, 2019, the CRA's average contribution rate was 9.22% of covered-employee payroll.

<u>Net OPEB Liability</u> – The CRA's net OPEB liability was measured as of December 31, 2019, using an actuarial valuation as of January 1, 2019. The components of the net OPEB liability of the CRA at December 31, 2019, were as follows:

Total OPEB liability	\$ 677,305
Plan Fiduciary Net Position	(32,446)
Net OPEB liability	\$ 644,859

Plan Fiduciary Net Position as a percentage of total liability

4.8%

The total OPEB liability in the most recent actuarial valuation was determined using the following key actuarial assumptions applied to all periods included in the measurement, unless otherwise specified:

Investment Rate of Return 6.08%, net of OPEB plan investment expense, including inflation

Muncipal Bond Rate 3.26% as of December 31, 2019

Single Equivalent Discount Rate 5.50%, net of OPEB plan investment expense including inflation Inflation 2.50% annually as of December 31, 2019 and for future periods Salary Increases 3.00% annually as of December 31, 2019 and for future periods

Cost of Living Adjustment Not applicable

projected generationally with scale MP-2016 for males and females

Post-Retirement Mortality RP-2014 Healthy Annuitant Mortality Table Blue Collar Healthy Annuitants

projected generationally with scale MP-2016 for males and females

Disabled Mortality RP-2014 Healthy Annuitant Mortality Table for Blue Collar Healthy Annuitants

projected generationally with scale MP-2016 for males and females (set forward 1 year)

<u>Discount Rate</u> – The discount rate used to measure the total OPEB liability was 5.50% which represented a blend of the yield or index rate of 3.26% at December 31, 2019, for twenty-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher used for unfunded periods and the long-term expected rate of return of 6.08%. The discount rate was increased from 5.0% which was a key change in assumptions.

<u>Long-Term Expected Rate of Return</u> – The long-term expected rate of return on OPEB Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB Plan investment expense and inflation) are developed for each major asset class. The rate reported of 6.08% represents an increase over the prior year rate of 5.37%.

These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Expected
	Target	Investment Rate
Asset Class	Allocation	of Return
Domestic Equity - Large Cap	37.10%	4.80%
Domestic Equity - Small/Mid Cap	0.00%	5.29%
International Equity - Developed Market	15.90%	5.45%
International Equity - Emerging Market	0.00%	6.42%
Domestic Fixed Income	39.00%	2.05%
International Fixed Income	0.00%	3.00%
Alternatives	0.00%	6.50%
Real Estate	8.00%	6.25%
Cash	0.00%	0.00%
	100.00%	
Real rate of return		3.95%
Inflation assumption		2.50%
Total nominal rate of return		6.45%
Investment expense		-0.37%
Net investment return		6.08%
THE HIVESTILL LETTIL		0.08%

<u>Sensitivity Analyses</u> – The following presents the CRA's net OPEB liability as well as what the CRA's net OPEB liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current discount rate as well as if the healthcare cost trend rates are 1% lower or higher than the current healthcare cost trend rates:

	Healthcare									
	1% De	1% Decrease (4.5%)		Rate (5.5%)	1% Increase (6.5%					
Net OPEB Liability	\$	571,468	\$	644,859	\$	735,063				
Service Cost		13,363		17,087		22,120				
			Disc	ount Rate						
	1% De	ecrease (4.5%)	Trend	Rate (5.5%)	1% In	crease (6.5%)				
Net OPEB Liability	\$	728,744	\$	644,859	\$	575,760				
Service Cost		21,562		17,087		13,696				

<u>Changes in the Net OPEB Liability</u> – The following table summarizes the changes in the net OPEB liability for the year ended December 31, 2019:

	Total OPEB Liability (a)		n Fiduciary t Position (b)	 Net OPEB Liability (a) - (b)
Balances at December 31, 2018	\$	860,656	\$ 21,232	\$ 839,424
Changes for the year:				
Service cost		17,087	-	17,087
Interest		42,905	-	42,905
Difference between actual and expected		(144,672)	-	(144,672)
Change in assumptions		(58,898)	-	(58,898)
Net investment income		-	4,214	(4,214)
Employer contributions		-	46,773	(46,773)
Benefit payments		(39,773)	 (39,773)	 <u> </u>
Net changes		(183,351)	 11,214	(194,565)
Balances at December 31, 2019	\$	677,305	\$ 32,446	\$ 644,859

<u>OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB</u> – For the year ended December 31, 3019, the CRA recognized OPEB expense of \$11,382. Deferred outflows of resources and deferred inflows of resources related to OPEB at December 31, 2019, were reported as follows:

Deferred Outflows			rred Inflows
of Resources			Resources
\$	4,001	\$	115,738
	-		82,208
	1,378		2,520
\$	5,379	\$	200,466
		of Resources \$ 4,001 - 1,378	\$ 4,001 \$ - 1,378

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense (benefit) as follows:

December 31,	
2020	\$ (48,667)
2021	(52,670)
2022	(52,495)
2023	 (41,255)
	\$ (195,087)

#### GASB Statement No. 74

OPEB Plan disclosures that impact the CRA's net OPEB liability using a reporting date of December 31, 2019, are summarized in this section except disclosures under GASB 74 that are identical to GASB 75 are not repeated.

<u>Investment Custody</u> – In accordance with Massachusetts General Laws, the Treasurer is the custodian of the OPEB Plan and per the OPEB Plan Document, the CRA Board of Directors serve as the Board of Trustees for the OPEB Plan. As such they are responsible for the general supervision of the management, investment and reinvestment of the OPEB Plan assets.

OPEB Plan assets may be invested and reinvested by the custodian consistent with the prudent investor rule established in Chapter 203C and may, with the approval of the State Retiree Benefits Trust Fund Board of Trustees, be invested in the State Retiree Benefits Trust Fund established in Section 24 of Chapter 32A. OPEB Plan assets must be segregated from other funds and not be subject to the claims of any general creditor of the CRA.

<u>Investment Policy</u> – The OPEB Plan's investment policies as stipulated in the OPEB Plan document and limit the Board of Trustees to invest excess funds in accordance with Chapter 203C of the Massachusetts General Laws.

<u>Investment Rate of Return</u> – For the year ended December 31, 2019, the annual money-weighted rate of return on investments, net of investment expense, was 19.36%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

#### C. Risk Financing

The CRA is exposed to various risks of loss related to torts; theft, damage, and destruction of assets; errors and omissions; and natural disasters for which the CRA carries commercial insurance. Additionally, premium-based health care plans sponsored by the CRA for its active employees and retirees is provided through the Group Insurance Commission. The amount of claim settlements has not exceeded insurance coverages in any of the previous three years.

The premium-based health care plans are administered through the Group Insurance Commission (GIC). Health care coverage provided for active employees is funded 75% through contributions by the CRA with the remaining 25% provided by participating employees. With regards to retirees' health care benefits, the retirees provide 10% - 20% of the contributions with the difference funded by the CRA.

#### **D.** Commitments and Contingencies

The CRA is party to certain legal claims, which are subject to many uncertainties, and the outcome of individual litigation matters is not always predictable with assurance. Although the amount of liability, if any, at December 31, 2019, cannot be determined, management believes that any resulting liability, if any should not materially affect the financial statements at December 31, 2019.

Additionally, the CRA maintains some specific, financial commitments relative to the contribution or loaning of CRA cash assets at some point in the future, which are disclosed here:

• The CRA has agreed to loan up to \$300,000 to a local entity relative to an affordable housing project. The loan recipient does not intent to drawdown funds against this loan until 2022.

#### E. Subsequent Year Events

<u>Loan Program</u> – In November 2018, the CRA board voted to initiate a loan with JAS to improve on their affordable housing structures in the Wellington-Harrington project area in the amount of \$300,000. The final loan docs were not signed until spring 2019. JAS does not want to draw the money down until 2022, and the CRA fully expects to be paid back this loan.

COVID-19 — On March 11, 2020, an outbreak of the novel strain of coronavirus known as COVID-19 was declared a pandemic by the World Health Organization. Due to this, the financial markets have experienced and may continue to experience significant volatility. CRA will continue to monitor the market conditions as information is available to evaluate the potential impacts, if any, on the value of its various investments and operations.

#### IV. Implementation of GASB Pronouncements

**Current Year Implementations** 

None.

#### **Future Year Implementations**

In January 2017, the GASB issued GASB Statement No. 84, *Fiduciary Activities*. The objective of the Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how these activities should be reported. The provisions of this Statement are effective for financial reporting periods beginning after December 15, 2019 (fiscal year 2020). This statement did not have a material impact on the financial statements.

In June 2017, the GASB issued GASB Statement No. 87, *Leases*. This Statement redefines the manner in which long-term leases are accounted and reported. As amended, the provisions of this Statement are effective for financial reporting periods beginning after June 15, 2021 (fiscal year 2022). The CRA is currently evaluating whether adoption will have a material impact on the financial statements.

In June 2018, the GASB issued GASB Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*. This statement establishes accounting requirements for interest costs incurred before the end of a construction period. The provisions of this Statement are effective for financial reporting periods beginning after December 15, 2020 (fiscal year 2021). The CRA is currently evaluating whether adoption will have a material impact on the financial statements.

In August 2018, the GASB issued GASB Statement No. 90, *Majority Equity Interest – An Amendment of GASB Statements No. 14 and No. 61*. The objective of this Statement is to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. The provisions of this Statement are effective for financial reporting periods beginning after December 15, 2019 (fiscal year 2020). This statement did not have a material impact on the financial statements.

In May 2019, the GASB issued GASB Statement No. 91, Conduit Debt Obligations. The objective of

this Statement is to standardize the reporting of conduit debt obligations by issuers by clarifying the existing definition of conduit debt obligation, among other matters. The provisions of this Statement are effective for financial reporting periods beginning after December 15, 2021 (fiscal year 2022). The CRA is currently evaluating whether adoption will have a material impact on the financial statements.

In March 2020, the GASB issued GASB Statement No. 93, *Replacement of Interbank Offered Rates*. The objective of this Statement is to address accounting and financial reporting implications that result from the replacement of an interbank offered rate. As amended, the provisions of this Statement are effective for financial reporting periods beginning after June 15, 2021 (fiscal year 2022). The CRA is currently evaluating whether adoption will have a material impact on the financial statements.

In March 2020, the GASB issued GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. The objective of this Statement is to improve financial reporting by addressing issued related to public-private and public-public partnership arrangements. The provisions of this Statement are effective for financial reporting periods beginning after June 15, 2022 (fiscal year 2023). The CRA is currently evaluating whether adoption will have a material impact on the financial statements.

In May 2020, the GASB issued GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*. The objective of this Statement is to address accounting for subscription-based information technology arrangements to government end users based on the standards established in Statement No. 87, as amended. The provisions of this Statement are effective for financial reporting periods beginning after June 15, 2022 (fiscal year 2023). The CRA is currently evaluating whether adoption will have a material impact on the financial statements.

In June 2020, the GASB issued GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – An Amendment of GASB Statements No. 14 and No. 84, and a Supersession of GASB Statement No. 32. The objective of this Statement is to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution OPEB plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code Section 457 deferred compensation plans that meet the definition of a pension plan and for benefits provided through those plans. The provisions of this Statement are effective for financial reporting periods beginning after June 15, 2021 (fiscal year 2022). The CRA is currently evaluating whether adoption will have a material impact on the financial statements.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Cambridge Redevelopment Authority Cambridge, Massachusetts

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the activities of the Cambridge Redevelopment Authority (the "CRA"), a component unit of the City of Cambridge, Massachusetts, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the CRA's basic financial statements and have issued our report thereon dated [Date Pending Approval].

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the CRA's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the CRA's internal control. Accordingly, we do not express an opinion on the effectiveness of the CRA's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the CRA's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
