Re: 88 Ames Street
Planning Board Case No. 294

Dear Iram:

This correspondence will serve to confirm Boston Properties' commitment to provide four (4) additional affordable units at 88 Ames Street beyond the thirty-two (32) units required pursuant to the application of the Inclusionary Housing Formula set forth in Section 11.200.

As you may be aware, Ben Lavery of Boston Properties has been working with representatives of the Affordable Housing Department to finalize the details of the IHP covenant that will identify the thirty-six (36) units that will be provided.

If you require any additional information concerning this issue, please feel free to contact me.

Sincerely,

Michael A. Cantalupa
Senior Vice President - Development
