Cambridge, MA 02142

**Re: Yellow Garage – APGS Signage Approval**

Boston

Dear Ms. Alikpokou,

Los Angeles

Included with this letter is our submission for the Automated Parking Garage System (APGS) main entry sign for the Yellow Garage. The package includes rendered views and technical drawings with dimensions, lighting design, materials and colors, and the attachment system design as required by Section 5.2 of the MXD Signage Guidelines.

New York

San Francisco

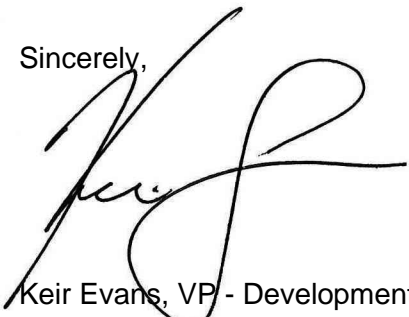

Washington, DC

The sign will be mounted above the main entrance to the Yellow Garage on Ames Place. The sign measures approximately 29.86 ft<sup>2</sup> including the supports, or 23.33 ft<sup>2</sup> excluding them. The intent is for the sign to be illuminated, and as the garage functions on a 24/7 basis the data displayed would follow the same hours.

The fabrication for the sign will take approximately 10-12 weeks, with an expected installation date of December 2023.

If you require anything further or have additional questions, please do not hesitate to contact me at [kevans@bxp.com](mailto:kevans@bxp.com).

Sincerely,

Keir Evans, VP - Development
